

Item name: folding solar charger	Model No.: SRUSB15
Power: 15W	Conversion efficiency: $\geq 23\%$
Output port: Dual USB	Output voltage: 5V
Output current: 2.5A (Peak current)	PCB feature: stabilized voltage, intelligent identifying, auto resuming
Product weight: 0.4kg	Color: black
Material: PET lamination Sunpower solar panel with PVC waterproof clothing;	

Application scope: digital devices like: mobile phones, power banks, ...  
 GPS navigator, camera that needs 5V power supply.  
**Based on different sunlight radiance, the charging current, and time will be different. It is better to use it with a power bank.**

Size indication:

Open : 520x290x15mm

Folded: 290x165x25mm

Because this is measured by hand, there may be some error in the sizes.  
 Please refer to actual product for correct sizes.
